A dedicated Web Developer with a strong focus on building high-performance, scalable web applications across both front-end and back-end technologies. Skilled in API development, database management, and seamless third-party API integration. Adept at optimizing application performance, securing and delivering reliable solutions that enhance user experience and business efficiency.

Technical Skills

- PHP
- Laravel
- ReactJS
- Typescript/Javascript
- Python
- Django
- Docker
- MySQL
- MSSQL
- PostgreSQL
- Redis
- AWS
- Jira
- Linux
- Git
- RESTAPI Development

Work Experience

Programmer   June 2022 - Present
Adamson University - Manila, Metro Manila Philippines

- Led the migration of a legacy PHP system to a modern Laravel and React stack, improving development efficiency, enhancing scalability, and resolving key security vulnerabilities.
- Wrote production-ready front-end and back-end code for a web application serving over 10,000 simultaneous active users
- Conducted hands-on training sessions for developers in Laravel and ReactJS, resulting in improved code quality, faster onboarding, and increased team efficiency.
- Conducted comprehensive code reviews, ensuring strict adherence to industry best practices and the implementation of security protocols.
